CREATIVE EUROPE PROGRAMME

Creative Europe is the new EU programme to support European cinema and the cultural and creative sectors, enabling them to increase their contribution to jobs and growth. With a budget of €1.46 billion for 2014-2020, it supports tens of thousands of artists, cultural and audiovisual professionals and organisations in the performing arts, fine arts, publishing, film, TV, music, interdisciplinary arts, heritage, and the video games industry, by allowing them to operate across Europe, to reach new audiences and to develop the skills needed in the digital age.

Creative Europe builds on the experience and success of the Culture and MEDIA programmes, which have supported the cultural and audiovisual sectors for more than 20 years. The new programme includes a Culture sub-programme, supporting performing and visual arts, heritage and other areas, and a MEDIA sub-programme, which provides funding for the cinema and audiovisual sector. A new cross-sectoral strand supports policy cooperation, transversal measures and the new financial guarantee facility, which have been operational since 2016.

The programme will allocate at least 56% of its budget for the MEDIA sub-programme and at least 31% for the Culture sub-programme. This broadly reflects the share of funding that the two areas currently receive. A maximum of 13% of the budget will be allocated to the cross-sectoral strand, which includes support for “Creative Europe Desks” in each participating country, providing advice to potential beneficiaries. Around €60 million is earmarked for policy cooperation and for fostering innovative approaches to audience building and new business models.

Culture plays a major role in the EU economy. Studies show that the cultural and creative sectors account for up to 4.5% of EU GDP and nearly 4% of employment (8.5 million jobs and many more if account is taken of their impact on other sectors). Europe is the world leader in exports of creative industry products. To retain this position, it needs to invest in the sectors capacity to operate across borders. Creative Europe responds to this need by target investment where the impact can be greatest.

The new programme takes account of the challenges created by globalisation and digital technologies, which are changing the ways cultural works are made, distributed and accessed, as well as transforming business models and revenue streams. These developments also create opportunities for the cultural and creative sectors. The programme seeks to help them seize these opportunities, so that they benefit from the digital shift and create more jobs and international careers.

Creative Europe is open to the 28 Member States, and, so long as they fulfil specific conditions, to the European Free Trade Association countries (Iceland, Liechtenstein, Norway and Switzerland), to EU candidate and potential candidate countries (Montenegro, Serbia, the former Yugoslav Republic of Macedonia, Turkey, Albania, Bosnia and Herzegovina, Kosovo) and to neighbourhood countries (Armenia, Azerbaijan, Belarus, Georgia, Moldova, Ukraine, Algeria, Egypt, Morocco, Tunisia, Jordan, Lebanon, Libya, Palestine, Syria and Israel). Non-EU countries have to pay an “entry ticket” to participate in the programme. The cost is based on the size of their GDP (Gross Domestic Product) in relation to the budget of the programme

Even though Creative Europe is not open to applications from individuals, but around 250 000 individual artists and cultural and audiovisual professionals can receive funding through projects submitted by cultural organisations. This is a much more cost-effective way to achieve results and a lasting impact. The Commission estimates that millions of people can be reached directly or indirectly through the projects supported by Creative Europe.

Eventually the Creative Europe programme is aimed to support

- 250 000 artists and cultural professionals and their work, allowing them to reach new audiences beyond their home countries;
- More than 800 European films will receive distribution support so that they can be seen by audiences throughout Europe and the world;
- At least 2 000 European cinemas will benefit from funding, provided that at least 50% of the films they screen are European;
- More than 4 500 books and other literary works will receive translation support, allowing authors to break into new markets and readers to enjoy them in their mother tongue;
- Thousands of cultural and audiovisual organisations and professionals will benefit from funding for training to gain new skills and to strengthen their capacity to work internationally.

The European Capitals of Culture, European Heritage Label, European Heritage Days and the five European prizes (EU Prize for Cultural Heritage/Europa Nostra Awards, EU Prize for Contemporary Architecture, EU Prize for Literature, European Border Breakers Awards, and EU Prix MEDIA) will also receive support from Creative Europe.

GOLDEN APRICOT FUND FOR CINEMA DEVELOPMENT

Golden Apricot Fund for Cinema Development (GAFCD) is a non-profit cultural organization established in 2004 in Armenia. The objectives of **GAFCD** are strengthening and consolidating the audiovisual sector, encouraging professional networking and cultural exchange across borders and preserving the cultural diversity of the region. Since its establishment **GAFCD** has been at the forefront of regional cooperation in the sphere of culture, using cinema as a powerful tool to transcend borders and build trust.

It is almost 14 years that **GAFCD** has established synergies at different levels between state and audiovisual actors to promote global partnership and sustainable development. **GAFCD** is dedicated to building co-operation bridges with Europe and enhancing the professional capacity building of the audio-visual sector in Armenia and the EaP region. Among the recent successfully implemented projects are the **Golden Apricot MasterSchool of Cinema**, **Directors Across Borders (DAB)** supported by EU's Eastern Partnership Cultural Programme, **Armenia-Turkey Cinema Platform (ATCP)** and many others.

In 2011-2014 **GAFCD** launched a three-year collaboration with EU's *Eastern Partnership Culture Programme* within the frames of Directors Across Borders (**DAB**) Project. The Project was aimed to develop cross-border multilateral cooperation and realize different components of seven interconnected networking, capacity development, and cultural exchange activities between the **EaP** countries and beyond. The DAB Project was a real success and resulted in the establishment of a productive cooperation platform for the project's beneficiaries in EaP countries. 60 emerging script-writers, producers, film directors from EaP countries were trained in frames of the Project. 10 film projects, among the presented 40, were awarded development grants, including the Ukrainian film *The Tribe* by Myroslav Slaboshpytskiy – the winner of Cannes Critics' Week 2014 (Semaine de la Critique) and Golden Apricot Yerevan International Film Festival in 2014.

Among its recent strategic achievements has been Armenia's accession to the Council of Europe fund for the co-production, distribution, exhibition and digitization of European cinematographic works "Eurimages" – that took place in January 2016, and was initiated by the National Film Centre of Armenia and **GAFCD** back in 2007. **GAFCD** is dedicated to building further the co-operation bridges with Europe and enhancing CSOs-CCIs capacity building platform.

Since 2014 **GAFCD** has been lobbying Armenia's joining the Creative Europe Programme through different initiatives and activities.

The main fields of activities are:

- ✓ Organization of *GOLDEN APRICOT Yerevan International Film Festival (GAIFF)* which is an annual celebration of world cinema, held in Yerevan, the capital of the Republic of Armenia. The main theme of the festival is *Crossroads of Cultures and Civilizations*. The title may well serve as our impassioned mantra for building cultural bridges and fostering dialogue. Founded in 2004, *GAIFF* has fast become a premier destination in the region for filmmakers of all genres, particularly those advancing universal values of peace, cross-pollination, and mutual understanding;
- ✓ Implementation of regional activities aimed to promote intercultural dialogue and tolerance between the neighbourhood countries – workshops, trainings, seminars, forums;
- ✓ Co-production;
- ✓ Publication, Education.

Georgia, Ukraine, and Moldova from EaP region have already joined the Programme. The situation in Armenia, Azerbaijan, and Belarus, to some extent, remains similar. To achieve positive results with full accession in Creative Europe Programme the EaP civil society should join their efforts and make their voice heard. Creative Europe Programme can become a unique platform for EaP-Europe co-operation.

CE FORUM specific objectives are:

- ✓ to contribute to advancing reforms of the EaP countries;
- ✓ to strengthen the regional perspective and bridge the emerging gaps among the EaP countries while acknowledging the different paths and contractual relations with the EU;
- ✓ to increase the role of the national and EaP civil society effort and participation in cultural policy-making;
- ✓ to provide EaP Cultural and Creative Industries (CCIs) capacity building platform;
- ✓ to enhance CCIs co-operation principles and practices;
- ✓ to contribute to the effective policy-making and advocacy of the objectives of the EaP Civil Society Forum;
- ✓ to promote transnational co-operation and production.
- ✓ to advocate cultural heritage protection;
- ✓ to prepare and adopt the Forum Statement on the full accession of the EaP countries to the Creative Europe Programme.

During the **CE FORUM** official-level conferences, series of panel discussions, case studies, workshops, networking events and project presentations will take place. The guests of the Forum include representatives of officials from European institutions, Ministry of Culture of Armenia, Creative Europe Programme as well as industry professionals from Armenia, Belarus, Georgia, Moldova, Ukraine, and Europe.

Day 1 (12 July) will focus on key topics of Creative Europe Programme, development of EaP-EU creative industries platform, institutional connections (authorities-civil society) at the regional and inter-regional level.

Armenia-Turkey Cinema Platform (ATCP) was born out of the cooperation between cultural and cinematic organizations in Armenia and Turkey, namely Golden Apricot Yerevan International Film Festival and Anadolu Kültür with the aim of establishing a common network through which filmmakers from both countries are able to cooperate and produce films together. Since 2009 the ATCP organized many workshops, meetings and conferences to address issues related to our countries. The objective is to further deepen our initiatives towards establishing a joint team of Armenian and Turkish filmmakers to pursue high potential films of common interest for both countries.

Today ATCP is a full-fledged network with more than 250 participants from both countries, which helped to bring 23 films to the big screen.

Many of ATCP supported short movies and documentaries have been included in many international events and festivals and attracted broad audiences from around the world. WORKSHOPS

EURASIADOC

July 10-12, 2017

Eurasiadoc was launched in November 2011 with the support of the European Union and the Rhône-Alpes region, and it seeks to create a propitious environment to documentary co-productions in Eurasia's vast geographical space and to bring out the views of authors from Eurasian societies. The goal is to create a professional and human network capable of accelerating the development of a fair economy of the creative documentary.

First implemented in the countries of the Caucasus, Central Asia, and Russia from 2012 to 2014, Eurasiadoc then concentrates around Armenia, Georgia, and Turkey. The program now aims to extend again its actions to a wider Eurasian area.

Each year, Eurasiadoc implements:

- ✓ 3 workshops dedicated to the writing and development of creative documentary film projects.
- ✓ The Coproduction Meetings, with a view to initiating the production of these films via a network of Eurasia-Europe partnerships. The films put into production with the partner TV channels are then brought together in the "Lumière d'Eurasie" collection, coordinated by the Lumière du monde association.

Since its creation, Eurasiadoc has allowed the production of some fifty films. Several of them have been selected and awarded prizes at major European and Eurasian festivals (IDFA, Visions du réel in Nyon, Dok Leipzig, etc.). This dynamic led to the creation of several local structures, among others a Documentary Master's degree launched in Kazakhstan in 2014, which became regular partner of the program.

PITCH WORKSHOP

July 12, 2017, 11.00 – 18.00

An interactive workshop that provides participants with an overview of the pitching process and creates a safe space within which they can practice pitching and receive supportive feedback. The workshop is designed for screenwriters, producers and directors, and while the main focus is on how to convey the story of the film with economy, clarity and confidence, we will also cover other elements of the pitch that are relevant for producers presenting a project to the market.

Pitch Workshop is designed for a maximum of 12 participants to ensure that there is time for everyone to practice and receive feedback. Everyone is asked to come with a project that they are currently working on and that they will be happy to use in their pitching practice. It will be useful if participants are familiar with the story of Shakespeare's *Romeo and Juliet* but their involvement in the workshop will not be affected if they are not.

The main tasks of the project include the study, analysis and presentation of the experience of the development and interaction of national cinemas in the period of the Soviet Union, and then – in the post-Soviet times.

The focus of the issues discussed at the events of this cycle will be not only the historical and cultural roots and relations in the field of cinema that have developed in the Soviet period, but also the understanding of the prospects for cooperation in the field of cinema, including the development of coproductions, the formation of tools and support measures for film production in the territory of the CIS and the other countries of the former USSR.

Eventually, the cycle of round tables and conferences aims not only to present research on the development of national cinemas, but also to identify and develop recommendations and proposals on formats for the development of the film industry in the CIS and the former USSR.

THE NATIONAL CINEMA CENTRE OF ARMENIA

The National Cinema Centre of Armenia (NCCA) headed by Mr. Gevorg Gevorgyan is a state non-commercial organization and the successor to the H. Beknazaryan “Armenfilm” (“Hayfilm”) studio – which was set to operation in 1923. NCCA was established in 2006 with the purpose to preserve, promote and develop Armenian cinema and cinema culture locally and abroad. It is the key player of the national production and co-production support in Armenia. NCCA functions under the Ministry of Culture.

Annually (by 30th of May) NCCA accepts production support applications for feature and animation films (both full-length and shorts), debut, student films, as well as for script development. Because of the existence and remit of the “Hayk” Documentary Film Studio, documentary films normally are not supported by the NCCA unless they fall into some other category e.g. in the case of docu-feature or if the documentary is a student or a debut film. NCCA encourages applications by young filmmakers.
